

HOME SWEET HOMEBUILDERS

We've taken great care to plan every important detail of Colorado's first conservation community, from reserving 500+ acres of open space for an extensive trail system to pocket parks located within 1,000 feet of every home. We've integrated purposeful amenities throughout the community, including a community clubhouse, pool, fitness center, community garden, dog park, and more.

We've also carefully designed every home to meet the highest levels of construction and have incorporated the latest technology, energy efficiency and thoughtful design options to create the idyllic home and setting for our residents.

Choose from multiple floorplans in different styles, including Farmhouse Fresh, Prairie Pure, Mountain Modern and Classic Contemporary, with color palettes and architectural elements inspired by the original 1860s homestead that's still located in the center of our community.

To learn more about the homes at Independence, please reach out to our homebuilders:
